

WHAT HAPPENS AFTER EYE SCREENING?

Diabetes Eye Screening Ottawa

- The photos of your retina will be sent to a retina specialist for review .
- The screening staff will send a report with the results to your primary care provider or the health care provider who referred you for screening.

**Follow-up treatment
not needed**

**Follow-up treatment
needed**

Remember to book an appointment for an eye screening each year.

- Your primary care provider or the screening staff can help connect you with an eye specialist – you are not alone!
- The most suitable treatment will be provided by the eye specialist.

Take note of the date of your next appointment for an eye screening.

Indicate if you have a preferred location for follow-up care.
